RE: Reconnaissance Level Characterization Report (RLCR) for Building 460 – Concurrence

Dear Mr. Legare:

Parsons, D. X
Swartz, J.M. Y

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed the RLCR for Building 460; Revision 0 dated April 20, 2005. We received this RLCR and your letter on May 05, 2005. We provided comments and have received revisions to this RLCR. Based on the information contained in the RLCR, as revised, we are hereby concurring that Building 460 is a Type 1 Facility.

As stated in this report, all of the RCRA Units have been properly closed, and the appropriate PE Certification will be submitted with the Closeout Report for B460. It is also stated that most of the slab and pits will remain in place, which needs to be properly identified in the Closeout Report along with the location and condition of all remaining infrastructure (storm drain lines, sewer lines, process waste lines, etc). This would include the location of all remaining ACM floor tile, if not removed.

All issues, such as the appropriate protection of the ACM tile during demolition, should be discussed and resolved utilizing the consultative process.

If you have any questions regarding this correspondence please contact me at (303) 692-3367, Harlen Ainscough at (303) 692-3337, or David Kruchek at (303) 692-3328.
